Resume prompts • Cover letters • Application answers • Interview prep • Job tracker • Project Scheduler bonus pack

**LAUNCH PRICE: $27**

Created by Cherish Akomah

# WELCOME

You do not need to start every application from scratch. This toolkit gives you ready-to-use AI prompts and practical templates to tailor your materials, prepare for interviews, and keep your search organized.

## Quick Start

1. Find a role you genuinely qualify for.
2. Paste the job description into the relevant prompt.
3. Add your real experience and accomplishments.
4. Review every AI-generated result for accuracy.
5. Personalize the final application before submitting.

# What’s Inside

| | |
|---|---|
| ✓ AI resume tailoring prompts | ✓ Cover letter generator |
| ✓ Job application answer bank | ✓ Tell-me-about-yourself scripts |
| ✓ 30/60/90-second elevator pitches | ✓ Interview question generator |
| ✓ STAR story builder | ✓ Follow-up email templates |
| ✓ Job application tracker | ✓ Project Scheduler / Project Management bonus prompt pack |

# AI USE & QUALITY CHECK

Use AI as your assistant—not as a substitute for your experience. Never allow it to invent employers, degrees, certifications, dates, responsibilities, or results.

### Before submitting, verify:

■ Every claim is true
■ Dates and job titles match your resume
■ Keywords are relevant to the role
■ The tone sounds like you
■ Contact information is correct
■ The final document has been proofread

# BONUS: PROJECT SCHEDULER / PROJECT MANAGEMENT

Use the included prompt pack to practice scheduling, timeline management, stakeholder communication, risk tracking, reporting, documentation, and project coordination scenarios.

# FINAL NOTE

Your goal is not to apply everywhere. Your goal is to present your real value clearly to the right employers.
